

# Certification Process

## Certification Roadmap

**ISO** CATALYST certification programmes have been designed to assist your company to maintain a high level of compliance in line with industry best practice. Our programmes are targeted at helping your organisation to identify areas of improvement that will provide bottom line benefits to your business.

**I** It is our priority to evaluate exactly why you are seeking the Certification so that we can tailor our services to suit you.

**T** Tendering for government work? For most government agency work, certification is a mandatory requirement for companies.

**C** Corporate Mandate? Many organisations implement management systems and seek certification for the purpose of exercising and reporting operational due diligence.

**C** Continual Improvement? Third party certification and review ensures systems and processes for continual improvement are implemented, instilling a high level of confidence in stakeholders.
